McCaldin in Medina County west
of Devine is drilling at 2,440 and
in the chalk. The well is said by
geologists to be running amply high
and has been attracting more at-
tention during the last week or so
due to indications that it is on struc-
ture. Austin chalk is taken as the
marker through this territory and
it is when the Austin chalk is en-
countered that a well gives the first
indications of its possibilities. The
McCaldin well is looking good so far
as the chalk is concerned.—Thurs-

CASTROVILLE, TEXAS, FRIDAY, JULY 9, 1926.

ED. HUEHNER, Local Representative

News or business matter for this page for the week's issue should be submitted to Mr. Huehner or mailed direct to us at Hondo not later than Wednesday night of each week.

A most deplorable accident happened last Tuesday afternoon, while Dr. and Mrs. L. A. Koontz were coming from LaCoste, their car collided with a heavy loaded truck, at the intersection of the LaCoste and San Antonio road. Dr. and Mrs. Koontz were thrown out and the lady sustained a fractured shoulder and other painful bruises, while Dr. Koontz passed through the ordeal with minor bruises. After first aid was rendered, Mrs. Koontz was rushed to San Antonio for medical treatment. According to last report, she is getting along as well as can be expected. We join the many friends in wishing her a speedy and permanent recovery.

Rev. and Mrs. Walter Kralik and son visited Rev. and Mrs. G. E. Grueber and family at Hondo Thursday.

Stephen Biediger of San Antonio was a Castroville visitor Friday.

Mr. and Mrs. Joe A. Bader and little son left Saturday for El Paso on a two week's vacation. We wish them a good old time.

Gabe Hans of San Antonio is spending a two week's vacation with home folks in our midst.

Sunday night's dance at the Electric Park Hall was largely attended and very much enjoyed.

Mr. and Mrs. Hy Vonfle and Mrs. Jacob Groff were Hondo visitors Monday. While Mr. Vonfle witnessed the Races the Ladies visited with Mr. and Mrs. Joe A. Bader.

Mr. and Mrs. Sam Etter and daughter, Miss Edna, Mr. and Mrs. Geo. Etter and Mr. and Mrs. E. C. Bippert and baby, Darlene, were San Antonio visitors Tuesday evening.

Miss Alma Etter left for Lake Placid, New York, Wednesday, where she will spend the summer months.

Mrs. R. Loessberg and son, Bud, and daughter, Gertrude, and Julia

visitors here last Friday.

Mr. and Mrs. John Hutzler and son and Mr. and Mrs. Allan Haby and son from Bader Settlement spent Saturday evening with F. A. Bohl and family here.

Mr. and Mrs. F. A. Bohl and children and Mr. and Mrs. Oscar Hitzfelder and sons spent Sunday with Robert Simon and family in San Antonio.

Mr. and Mrs. Joe Schmidt and Mr. and Mrs. Mat. Keller of Devine were visiting here Monday evening. They were accompanied home by Mrs. Louisa Soltner.

Mr. and Mrs. Chas. Loessberg and children, Mrs. Anna Loessberg and Messrs. Chas. Halty and Arthur Kriewald were business visitors at Hondo Monday.

Mr. and Mrs. Paul Tschirhart and children, Mr. and Mrs. E. J. Keller and son, Mrs. Theresa Zinsmeyer and Mrs. Louis Ricks and children spent Sunday with Emil Mueller and family in San Antonio.

Mrs. P. P. Eiserloh and grandson and Mrs. W. C. Imbau and daughter of San Antonio were visiting Mr. and Mrs. Joe Keller and Mr. and Mrs. Gus Zimmermann here Tuesday.

Messrs. August Hutzler and Aug. Tschirhart Sr. of Castroville were here on business Monday. They also called on Grandpa Zimmermann while here.

Mrs. Katherine Itlis returned to her home Sunday, after a two weeks visit to her sons, Adolph and family at San Antonio and Wm. and family at Delta.

Louis Biediger and daughter, Mrs. W. A. Luckenbach, were visiting Mrs. Wilfred Hutzler at the Santa Rosa Infirmary Sunday evening. At this writing Mrs. Hutzler is getting along nicely.

E. J. Keller was in San Antonio Wednesday after a load of supplies for the LaCoste Mercantile Co.

J. L. Zuercher and family spent Sunday with Andrew Mechler and family at the Sauz.

Messrs. Albert Biediger and Max Biediger were in San Antonio Saturday. They were accompanied back by Mrs. Alex Biediger, who underwent an operation for appendicitis at the Santa Rosa Infirmary three weeks ago.

Mr. and Mrs. Andrew Nehr and daughters, Misses Sylvia, Edna and Lizzie, and son, Andrew Jr., and Mr. and Mrs. Earl Raines all from Macedonia were visitors here and at Castroville last Thursday.

Messdames Joe Groff, Isebel Waitrek, Emil Zimmerman of Castroville, Messdames Henry Ney, Chas. Gilliam and baby, Mrs. Quin Ney and Miss Laura Ney of Hondo and Mrs. Louisa Soltner from Pearsall spent last Thursday with Mr. and Mrs. Joe Keller and Grandpa and Grandma Zimmermann here.

FOURTH WELL ON ADAMS TRACT IS BEING DRILLED IN.

Henderson Holden Saturday were completing the No. 4 Adams in Medina County, located south of the first three drilled, all of which were gas wells. Friday the No. 4 at 881 was showing a little gas but had not reached the sand. The well was expected to be in before night Saturday.

Ina Oil Company is drilling at 1,844 feet in the No. 1 Hoffman on Survey 535 and was thought then to be in the base of the Georgetown and expects in the next two or three days to reach the top of the Edwards. The well is showing a little gas and will be the next well in Medina to get into the Edwards for a test. With the oil showing above in other formations it seems to have a good chance. Cores are taken every few feet.

In the shallow pool four miles south of Hondo the Medina Oil Co. has brought in another well on the second location southwest of the discovery well which will be remembered was the No. 1 Taylor and which produced big from a depth of only 356 feet. Drilling around the discovery well was disappointing until a location was drilled 300 feet southwest which resulted in a well and now the second test 300 feet further southwest has resulted in a well. Each is at approximately the depth of the first and are estimated at 15 to 25 barrels.

Kittle & Townley have not yet completed their No. 1 Bendele but are working to shut off the water.

Alamo Drilling & Leasing Company has abandoned its No. 1 Graff north of the Ina Field at 840 feet at about 70 feet into the Austin chalk. The rig is being moved to the Kenedy ranch in the western part of the county where an Edwards lime test is to be drilled. While the No. 1 Graff was a dry hole it disclosed considerable additional information on the geology of that territory and may result in the drilling of another hole. Maxwell & Thurman some months ago on a location 4,000 feet southeast of the Graff No. 1 drilled a test which resulted in a dry hole but picked up considerable serpentine. The log of the Graff well is so much different from that of the Maxwell & Thurman well that a faulted condition is disclosed that may lead to the making of a location that will result in a well.—Sunday's Express.

Bad Color
(liver trouble)
"OCCASIONALLY I am trou-
bled with spells of consti-
pation and inactive liver," says
Mrs. John L. Pence, Broadway,
Va. "I always use Thedford's
Black-Draught when I feel a spell
of this kind coming on, for it
saves me a bad headache. My
color gets sallow at times. I get
real yellow, showing that the trou-
ble comes from the liver."
"I have found Black-Draught to
be the finest kind of a remedy
for this. I take Black-Draught
and make a tea out of it, and take
it, along in small doses for sev-
eral days. I have never found
anything that served me so well."
"Since I have known about
Black-Draught, I have not suffer-
ed nearly so much with head-
ache, caused from indigestion. If
I find my tongue is coated, and
I wake up with a bad taste in
my mouth, I know I have been
eating indiscreetly, and I im-
mediately resort to Black-Draught
to straighten me out."

Protect Your Crop Profits

From ploughing to threshing, your crops depend upon your tractor.

And the life of your hard-working tractor depends upon the kind of lubricating oil you use.

Mobiloids are especially made for your every farm need. They stand up. They don't thin out. They last longer—therefore cost less per mile and per year.

You can't risk a tractor breakdown so you can't afford to use a cheap oil. Make sure! Protect your tractor and your crops with Mobiloil. It will save you money in the long run.

We can supply you with Mobiloil in cans or drums—in handy sizes for farm use.

QUIHI NOTES.

English divine service will be held in Bethlehem Lutheran church Sunday morning at 10 o'clock. Please bring along your English hymnbooks. Sunday school and Bible Class will begin at 9 o'clock. All are welcome at all services in this church.

Next Tuesday night, July 13th, at 8 o'clock Rev. G. W. Sager of Southton will be here and deliver a lecture relative to Seguin College and educational problems. Rev. Sager is a graduate of the Seguin College and doubtless will have many interesting things to say about this college and its efforts to help young people in getting a good education. All are cordially invited to come and hear him.

The 4th of July celebration at Quihi was largely attended and proved to be a very pleasant and interesting affair. A fine program of songs and recitations was carried out well and greatly enjoyed by all present, as was also the very interesting and timely oration of Prof. Schweers Saathoff. The committee of arrangements under the able chairmanship of Mr. Alfred Boehle worked hard to make this celebration first class and surely merits the appreciation of the whole community for the splendid way it was arranged and carried out.

On July 4th the little daughter of Mr. and Mrs. Harry H. Balzen was baptised in Bethlehem Lutheran church, receiving the name Jarline Annie, the parents substituting for the sponsors.

IN MEMORIAM.

Jessie Mask, son of Mr. Rufus Mask of Jourdanton, Texas, was born at Hondo, Texas, July 18, 1907, and departed this life at 1:40 A. M. July 7, 1926, at Alice, Texas, age 18 yrs., 7 months and 2 days.

Jessie was an employee of the Humble Oil Production Company at the time of his death, which resulted from injuries received in a fall from a derrick at Benavides, Texas, at 9:15 P. M., July 6th.

His remains were accompanied on July 8, from Alice to Hondo to the home of his uncle, Mr. Walter Mask, by Messrs. A. L. Jones, F. A. Neal and Mr. Reiney, employees of the Humble Oil Production Co., from thence taken to the Oakwood cemetery for interment.

Jessie leaves his father, Mr. Rufus Mask; three brothers, Perry Mask of Baytown, Texas, Roy Mask of Flatonia, Texas, and Aubrey Mask of Mathis, Texas; two sisters, Misses Mae and Thelma Mask, both of Jourdanton, Texas, and a number of relatives and friends who join with the immediate family in their sorrow over the untimely going of this splendid young man.

The pall bearers were: Berkley Rutherford, Val Scott, Joe Valugera, Wesley Jenkins, Dudley Harrison, Roland Witten, and Edwin Peel. The floral offerings contributed by his many friends were beautiful, and made a lovely covering for the mound that rose above his grave.

In thy going thou hast plunged us into a great and overwhelming sadness and grief which cannot soon recover, for we shall not hear your cheery voice nor be greeted by your unfailing smile on earth again; but the memory of the strength of your young and manly bearing while with us will remain to comfort the loved ones and friends who continue a little further in the journey of this earthly life without the support of your helpful companionship.

NOTICE.

The Catholic Ladies will give a Lawn Party at the home of Mrs. Ed. de Montel on Wednesday evening, July 14th, at 8 o'clock. Games of Bridge, Dominoes, Forty-Two and Bunco will be played. A lovely entrance prize will be given to the one holding the lucky number. Prizes will also be given in the various games. An admission fee of 35 cents for adults and 25 cents for children will be charged. Refreshments free to all holders of admission tickets. The Public is cordially invited to attend.

BASEBALL.
On Sunday, July 4th, D'Hanis defeated the Morgan-Woodward team from San Antonio by the score of 6 to 0. Joe Mueller, pitching for D'Hanis, allowed only four scattered hits and struck out ten batters. Briggs, pitching for Morgan-Woodward was hit freely but reckless baserunning by the locals held down the score.

On Monday the SoloServe nine of San Antonio came out and D'Hanis was again victorious. The score was 6 to 3. Thomas Koch, D'Hanis' pitcher, did not allow a hit for six innings, the San Antonioans getting only three hits during the game. He struck out thirteen batters. D'Hanis hit Benson, Solo Serve pitcher, hard, but had many men left on bases. These two games were faultlessly handled by umpires A. H. Rothe of D'Hanis and Jesse Koch of San Antonio. These two victories gave D'Hanis nine wins out of eleven games played.

SOCIAL CLUB.
Miss Lucy Rothe entertained the members of the Social Club with a charmingly appointed "42" party on Wednesday afternoon of last week. The rooms were lovely in a decoration of Shasta daisies and ferns.

Mrs. M. A. Zinsmeyer won high score and was presented with a prettily embroidered card table cover, while the booty went to Mrs. J. P. Ephraim.

The hostess served a delicious plate luncheon consisting of chicken salad sandwiches, frozen fruit salad, angel food cake and iced tea to the following members: Mesdames A. J. Finger, W. E. Attorney General Should Be Elected on Personal Qualifications

"In offering myself for the consideration of the electorate of this State for the office of Attorney General," says Thomas S. Christopher of Dallas. "I am doing so out of a desire to be of some service to my State."

For my part this campaign is based upon principles and policies. I am making this race upon the proposition of a fair and frank discussion of the questions which confront us. I shall refuse to indulge in personalities, believing as I do, that every man's candidacy should be weighed by his position upon and attitude toward the problems of the day and supported in direct ratio to the capability of such candidate to carry into execution his ideas and his undertakings to completion.

No political machine is moving to grind out my destiny. No bloc, organization nor political group has sponsored my candidacy. I am under obligation to no man or set of men.

Law Enforcement
Our laws must be enforced. I shall stand ready at all times to lend every assistance to every officer of this state in due enforcement of its laws. If a law is good it ought to be enforced and public sentiment will see that it is. If laws are bad they ought to be enforced and public sentiment will wipe them off the books. A statute on our books but ignored breeds more contempt for law than any other single agency.

Technicalities work delay and injustice. Our courts should become havens of speedy justice where our humblest citizen might come with confidence rather than in fear and trembling, there to experience a series of injurious delays and petty quibbling and interpretations. Lawyers alone are not responsible for this or the present contempt into which our courts have fallen as some people have so recently charged. The influential and wealthy citizen, the layman with money to pay for attempted putting over of unconscionable bargains and unscrupulous deals must bear a joint responsibility with the lawyers of this state who with their money have fostered this condition and brought about the existing evils of which they now complain and disclaim all responsibility.

Prohibitionist
A prohibitionist all my life I will lend every possible assistance to the law enforcement agencies of this state in the enforcement of our liquor laws. It is a crying shame that our state officers have found it necessary to turn over its liquor cases for adoption by the Federal Government in order to get a conviction and in the least degree cope with the growing class of law-violating bootleggers and rum runners.

State Rights
A true Southern Democrat, I am almost as non-progressive as some people were wont to charge our illustrious Joe Bailey in the matter of states rights. Our Federal government is overreaching all reasonable bounds and on one pretext or another is usurping the authority of the states in ways and in magnitude never dreamed of by our Fathers. We are leaning too much in the direction of Paternalism. It must cease. Government at Washington must be simplified. Local self government and local determination must again be the order of the day. We must present a solid front against further Federal encroachment.

Improve Public Schools
The proper maintenance and up-building of our public school system is one of the most important functions of government. I stand for the constant improvement of our schools from the little one room school in the poorest rural community to our great State University. A free liberal education must be provided for every boy and girl, allowing equal opportunity to all which is the basis of our continued greatness, prosperity and the perpetuity of our Democracy.

Investigate Trusts
If elected I shall make a searching investigation into the operation of certain trusts, combinations and combines and where circumstances warrant, I shall not hesitate to take such action as the public welfare may dictate and the law provide.

I shall appoint only clean, honest men whose experience at the bar shall qualify them to efficiently and promptly carry on your business.

PROPOSED AMENDMENT TO THE CONSTITUTION.

HOUSE JOINT RESOLUTION NO. 9.
A resolution proposing an amendment to Art. 7, of the Constitution of the State of Texas by changing Section 3, eliminating the provision authorizing the Legislature to create special districts and making an appropriation therefor.

Be it resolved by the Legislature of the State of Texas:
SECTION 1. That Section 3, Article 7, of the Constitution be so changed as to read as follows: (creating new Section.)
"Section 3. One-fourth of the revenue derived from the State Occupation taxes and poll tax of one dollar on every inhabitant of the State, between the ages of twenty-one and sixty years, shall be set apart annually for the benefit of the public free schools; and in addition thereto, there shall be levied and collected an annual ad valorem State tax of such an amount not to exceed thirty-five cents on the one hundred (\$100.00) dollars valuation, as with the available school fund arising from all other sources, will be sufficient to maintain and support the public schools of this State for a period of not less than six months in each year, and it shall be the duty of the State Board of Education to set aside a sufficient amount out of the said tax to provide free text books for the use of children attending the public free schools of this State; providing, however, that should the limit of taxation herein named be insufficient the deficit may be met by appropriation from the general funds of the State and the Legislature may also provide for the formation of school districts by general laws; and all such school districts may embrace parts of two or more counties, and the Legislature shall be authorized to pass laws for the assessment and collection of taxes in all said districts and for the management and control of the public school or schools of such districts, whether such districts are composed of territory wholly within a county or in parts of two or more counties, and the Legislature may authorize an additional ad valorem tax to be levied and collected within all school districts heretofore formed or hereafter formed, for the further maintenance of public free schools, and for the erection and equipment of school buildings therein; provided that a majority of the qualified property tax paying voters of the district voting at an election to be held for that purpose shall vote such tax not to exceed in any one year one (1.00) dollar on the hundred dollars valuation of the property subject to taxation in such district, but the limitation upon the amount of school district tax herein authorized shall not apply to incorporated cities or towns constituting separate and independent school districts, nor to independent or common school districts created by general or special law."

SECTION 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of the State at an election to be held throughout the State on the first Tuesday after the first Monday in November, 1926, at which election all voters favoring said proposed amendment shall write or have printed on their ballots the words, "For the amendment to the Constitution of the State of Texas eliminating the provision which authorizes the Legislature to create special school districts."

SECTION 3. The Governor of the State is hereby directed to issue the necessary proclamation for said election and to have same published as required by the Constitution and existing laws of the State.

SECTION 4. That the sum of two thousand (\$2,000.00) dollars, or so much thereof as may be necessary, is hereby appropriated out of any funds in the Treasury of the State of Texas not otherwise appropriated, to pay the expenses of such publication and election.

Approved, April 4, 1925.

PROPOSED AMENDMENT TO THE CONSTITUTION.

SENATE JOINT RESOLUTION NO. 9.
A joint Resolution relating to the amending of Article 16, Section 58, of the Constitution of the State of Texas, abolishing the Board of Prison Commissioners; providing for the supervision and management of the Prison System, under such laws as may be provided for by the Legislature.

Be it resolved by the Legislature of the State of Texas:
SECTION 1. That Article 16, Section 58 of the Constitution of the State of Texas, be amended so as to hereafter read as follows:
Section 58. The Legislature shall have full power and authority to provide by law for the management and control of the Prison System of Texas and to this end shall have power and authority to place the Prison System under the supervision, management and control of such trained and experienced officer or officers, as the Legislature may from time to time provide for by law.

SECTION 2. The above Constitutional amendment shall be submitted to a vote of the qualified electors of this State at a general election to be held November 3, 1926, at which election all voters favoring said proposed amendment shall write or have printed on their ballot the words "For the amendment of Article 16, Section 58, of the Constitution, abolishing the Board of Prison Commissioners." And all those opposing said amendment shall write or have printed on their ballot the words "Against the amendment of Article 16, Section 58, of the Constitution, abolishing the Board of Prison Commissioners."

SECTION 3. The Governor of this State is hereby directed to issue the necessary proclamation for said election and have the same published as required by law.

SECTION 4. The sum of 5,000., or so much thereof as may be necessary, is hereby appropriated out of the funds of the Treasury of the State, and not otherwise appropriated, to pay the expenses of such publication and election.

Approved, April 4, 1925.

SENATE JOINT RESOLUTION NO. 7.
Proposing an amendment to the Constitution of the State of Texas by amending Section 33 and Section 40 of Article 16 of the Constitution of Texas so as to permit officers of the National Guard, the Officers Reserve Corps of the United States, and enlisted men of the National Guard, the National Guard Reserve, and the Organized Reserves of the United States to hold public office in Texas.

Be it resolved by the Legislature of the State of Texas:
SECTION 1. That Section 33 of Article 16 of the Constitution of the State of Texas be amended so as to read as follows:
"The accounting officers of this State shall neither draw nor pay warrant upon the Treasury in favor of any person, for salary or compensation as agent, officer or appointee who holds at the same time another office or position of honor, trust, or profit, under this State or the United States, except as prescribed in this Constitution. Provided, that this restriction as to the drawing and paying of warrants upon the Treasury shall not apply to officers of the National Guard of Texas, the National Guard Reserve, the Officers Reserve Corps of the United States, nor to enlisted men of the National Guard, the National Guard Reserve, and the Organized Reserves of the United States, unless otherwise specially provided herein. Provided, that nothing in this Constitution shall be construed to prohibit an officer, or enlisted man of the National Guard, or an officer of the Officers Reserve Corps of the United States, or an enlisted man of the Organized Reserves of the United States, to hold other office or positions of honor, trust or profit, under this State or the United States."

SECTION 2. The foregoing Constitutional amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on the first Tuesday after the first Monday in November A. D. 1926, at which ballots shall have printed thereon:
"For the Constitutional Amendment permitting officers and enlisted men of the National Guard, and the National Guard Reserve, and officers of the Officers Reserve Corps of the United States, and enlisted men of the Organized Reserves of the United States, to hold other office or positions of honor, trust or profit, under this State or the United States."

INSECT PESTS THREATENING.

(Continued from first page.)

Thus it happens that where the entire field becomes infested on account of weedy cotton, the control of the webworm becomes a difficult matter. One cannot use poisons in such case in heavy concentration. We believe however, that a light dusting or spraying with arsenicals will effect a control that will make such treatment profitable. In dusting, lead arsenate is safest but is costly. Calcium arsenate will be best all things considered. Use three pounds of either lead arsenate or calcium arsenate per acre, directing the dust onto the cotton rows, rather than merely allowing it to float. If Paris green is used, mix with an equal amount of hydrated or air slaked lime, and apply three or four

pounds of this mixture per acre. In spraying, use one and one-half pounds of either lead arsenate or Paris green, per fifty gallons of water. Where Paris green is used, slake one pound of quick lime and add to the water also. Apply sprays to the lower leaf surface if possible, as well as on top.

White arsenic will kill the cotton, and should not be used except on a few rows where migrating worms are to be stopped.

LEAF WORM.

Leaf worms have already appeared in the Houston section. This is a month earlier than they have appeared so far north in any previous years. This does not necessarily mean that heavy damage will result this season, and farmers should not be discouraged. They should keep careful watch however, and apply poisons early should small worms appear. It is especially important that supplies of poison be purchased in early anticipation of its need, or that at least sources of ready supply should be located. This insect is much more easily controlled than is the web-worm. Use the same poisons, preferably in the dust form, and while the dew is on the plants. Spraying may prove more practical in the drier sections.

MELON LICE.

Melon lice, or "honey dew" will soon appear doing damage to melons. For these, nicotine dust with a two percent actual content of nicotine sulphate, applied on a warm, quiet day with a good dusting machine is fully effective. Your county agent will be able to furnish directions for mixing and applying.

THREE BOYS LEARN TO FARM BY FARMING.

Three Oklahoma boys 12, 14, and 16 years old, rented and managed a 27-acre farm last year, added 10 acres to their tract this year, and have it plowed and planted for the 1926 crop, all without missing a day from school. They are Dale, Stanley, and Boise Mears, of Jones, Oklahoma County.

About three years ago they were invited to join a boys' and girls' club conducted by the county agricultural extension agent, and took a lively interest in the club's livestock and crop judging. By the next spring they had decided to try some of the new practices the other boys and girls were following, so they went to their father with a proposition for going into the farming business. He agreed to be financial backer for their enterprise.

The boys rented the 27-acre farm, bought a team and tools, and put in a cotton crop. They bought brood sows and two barrows for each partner to fatten. Time out of school was spent in caring for the livestock and in cultivating the cotton. They had some discouragements, for the first litters of pigs, farrowed in March, were poor and their hogs did not win any prizes when shown at the county fair. But when the boys had sold their fattened hogs and completed their records at the end of the season, they found they had earned \$142 through their hog-raising enterprise. The cotton yielded a fraction over 15 bales, and the boys had 50 per cent of the selling price for their season's work.

Altogether, according to reports to the United States Department of Agriculture, the three brothers made enough money in 1925 to pay all their indebtedness to their father and had team, tools, and capital sufficient for a larger crop in 1926. This year they are growing potatoes, sweet potatoes, and cotton.

Much Better.

DODD, MEAD AND COMPANY

AN UNUSUAL STORY which deals largely with the adventures of a young New Englander, an engineer, engaged in water development in the West. He comes into contact with various exciting phases of the life of the country and eventually has an opportunity to show the stuff that is in him when he is put up against the difficulties and problems of a gigantic enterprise involving the water supply of a large city. A stirring narrative by one who knows his West and has written some of its most fascinating tales.

HONDO, TEXAS, JULY 1, 1926.

No. 12.

FLETCHERIZED FARM FACTS

As this is written, June 22, Texas has the promise of a fine corn crop. Any country with a good corn crop in hand can count itself richly blessed, for it means not only bread for the family but meat as well, for the production of meat in this country, whether wisely so or not, is still largely dependent upon the production of corn.

FFF

For these reasons, a full corn crib every year should be one of the first and foremost considerations of the farmer who would be successful.

FFF

One of the first prerequisites of the successful production of corn is the securing of good seed corn. The best place to secure good seed is on ones own farm.

FFF

Of course, the time to begin to secure your seed corn was before the present crop was planted. If you hadn't the desired kind, you should have begun by purchasing the variety wanted from some neighbor who had it or some reliable dealer.

FFF

The crop should have been planted on land free of infection from corn plant diseases and infestation from corn plant insects. A seed-plat should have been prepared far enough away from fields of other varieties to prevent cross-pollination, and the entire field should have been closely watched and thoroughly rogued of any weak and defective stalks, freak stalks that were untrue to type, and stalks that showed any signs of disease, such as smut balls, etc. Had this been done you would now be ready to make the field selection of your next year's seed. And you could proceed with the safe assurance that you would have a lot of good seed.

FFF

Because one has neglected these important details need not cause him to drop the matter entirely. If you have a good variety of corn, satisfactorily adapted to your soil and climate and free from smut infection.

WEB-WORM

Various sections are reporting the presence of the web-worm, or "careless", worm and it is evident that damage is now being done, or may soon be expected from this insect, to cotton, in all parts of Texas.

This worm hatches from eggs laid on careless weeds or on alfalfa. Observations we have made in the field lead us to believe that the egg is never laid on the cotton itself, but that damage to cotton results only when the worm migrates from alfalfa fields, or from careless weeds,

In Which The Editor Discusses The Corn Crop.

tion you can not begin at a more opportune time than right now to improve it.

FFF

Field selection is a long step in the direction of seed improvement. It consists in the selection of stalks true to type and of uniform size and characteristics. The ears should be of uniform size and equidistant from the ground. Of course, varietal characteristics are to govern in field

selection, but as a rule stalks of a heavy, stocky build, with long, broad thrifty blades are to be preferred, as they indicate sturdy vitality and productiveness. Likewise firm heavy ears, well covered over the tips with shucks and drooping toward the ground are to be preferred, as they indicate firm heavy grain and the minimum damage from weather and weevils.

FFF

Instead, our method is to let it stand in the field until thoroughly dry. In this way the stalk is an entire loss, often remaining to be burned up as so much useless rubbish in the spring, and often times much of the blades waste in the same way.

FFF

Corn fodder, whether saved in the old-fashioned Southern way of stripping the blades from the stalks when ripe or by the free-nigger method of cutting off the tops just above the ears, is a most valuable roughage and should be saved—every blade of it. The waste of fodder in our Southern corn fields every summer is little less than an economic crime, a piece of profligacy of which we should be ashamed.

FFF

We know that there are some who will be ready to argue that stripping the stalk of its blade or cutting off the top will diminish the yield of grain more than the value of the fodder saved. We seriously question this—if the fodder is ripe;—know of no actual scientific experiments ever having been made to determine this; and granting there may be some truth in it, does it not argue for the Northern method of harvesting rather than our wasteful system?

FFF

Now that Nature has favored us with an abundant yield, let a frugal harvest save for the utility of man and beast the bounty wherewith we have been blessed!

The "careless" worms, like most others are best poisoned when very small. Unfortunately at this time, they feed mostly on the lower leaf surface, leaving the upper epidermis with its covering of poison. Also they protect themselves by spinning a web over themselves as they move about feeding, that prevents applications of poison from reaching the feeding surface. By the time the worms have begun to eat through the leaf, they have attained a size that renders them harder to poison.

(Continued on last page.)

INSECT PESTS THREATENING.

By R. R. Reppert, Entomologist.

When because of continued rains careless weeds, even though very small, sprout in the fields, and eggs are laid on them, damage to the cotton crop when the worms migrate may become very serious. In this case the cotton over the entire weedy area will likely require treatment. On the other hand, when the field is generally clean, and the worms migrate from weedy margins, heavy spraying of a zone of cotton, even though with a strength that kills this limited area of the crop, will be profitable because it results in the protection of the larger acreage beyond. In such case, however, careful watch must be continued lest later migrating worms cross this area and continue the damage.

DEVINE NEWSLETS

the Devine News.

Justice Hardeman, Atty. D. C. Brown and others are attending court at Hondo this week, where two or three cases are to come up in which Devine people are interested.

PIONEER BUSINESS MAN PASSES OVER THE BAR.

James R. Stroud, 63, pioneer business man and citizen of Devine, died at his home on Haden Street, late Monday, after a brief illness of only a few days confined to his bed. He was born at Lockhart, May 21, 1863, came to Medina County about 1890, and in March, 1891 was married to Miss Nannie Huffor who died in 1904, leaving him with five small children, two having died in infancy. These five children who survive are Geo. W. Stroud, Dallas, Claude E. Stroud, Porto Rico, W. L. Stroud, W. L. Holiday and Mrs. C. C. Wells, of Dallas and Mrs. Charlie Shelton, of Devine. In 1905 or later, he was married the second time, to Miss Nora Briggs, of Lytle, who survives with nine children, all at home ranging in age from 5 years to 14. Lila, Maude, Lois, Janie, Julia, Florence and Wilma, girls; and Roy and James, boys. Deceased opened a business house, blacksmith shop and small store, about 1890, and was one of the oldest business men in town, having for a long time run a store, and later a blacksmith and hardware business. He also served Devine twelve years as constable, being a candidate at the time of his death for that office. He was vigilant in the discharge of his duties, often being up all night after a hard day's work, and this no doubt contributed to his prematurely breaking down. He had been a member of the Methodist church since childhood, 36 years a member of the Devine church, was a Mason and a Woodman. His funeral was held Sunday afternoon at the Methodist church, by his pastor, Rev. J. A. Boatman, assisted by the pastor of the Baptist church, of which his last wife and her children are mostly members, Rev. W. N. Roberts, and was largely attended, many coming more than 100 miles. The Masons took charge at the home and after the church services conducted their rites at the grave after which the mound was covered with many beautiful floral offerings. Among those from a distance, attending the funeral, were Rev. and Mrs. B. N. Briggs, son and daughter, and Mr. George Briggs, of Del Rio; M. O. and Prof. Ben Briggs of Sabinal and Ed. and Dan Huffor and several others of San Antonio; Mrs. James Stroud and children of Lockhart; Mr. and Mrs. S. B. Moore, Truett Moore and Miss Carrie Moore, of San Marcos; Mr. and Mrs. John Shelton, Ser. Jungman and others from Hondo, besides the children of Dallas, with their families, all the children being present but the son in Porto Rico. The pall bearers were J. W. Howard, M. E. DuBose, G. D. Whitfield, D. M. Howard, Oak Williams, and E. L. Jones.

ADAMS 4 BIGGEST GASSESS IN MEDINA.

Adams No. 4 of Henderson & Holden, located south of the other gas wells on the Adams tract in Medina County, is a 22,000,000-foot gas well at a total depth of 947 feet. It is a little deeper measuring from the surface and is much bigger than the other gas wells completed in the field. The biggest well was the Adams No. 2, which gauged about 13,000,000 feet.

The No. 4 is a big and important gas well and will not fail to add considerable interest already well aroused in that part of Medina Co. The understanding is that Henderson & Holden will continue to drill their block through the location of the next well is not definitely determined. Drilling is continuing on the theory that there is oil to be found somewhere around the gas area. However the gas field is already sufficiently extended to make it an important and very valuable field as is it for natural gas.

Tarver and Sprague, it is understood, are shut down on their No. 1 Howard and probability is that further drilling will be done in that district which is little over a mile east of the gas area and which showed quite a little oil in the first test, but not enough to make a commercial well.

Alamo Drilling and Leasing Company is rigged up and spudded in on the Kenedy ranch in the western part of Medina County near the Uvalde County line. California-Medina Oil Company, which was having trouble with parted casing has gotten the casing joined up again and have resumed drilling operations. Gibson Oil Company due to the driller getting sick, and having to go to the hospital, has been making but little progress in its Saathoff well in Medina, south of D'Hanis, which is changing to heavy duty rig for an Edwards lime test.

Kittle & Townley at 960, bailed their No. 1 Bendele in Medina southwest of Hondo eight miles, and got a little oil, but failed to make a commercial well and it is expected will drill deeper.

North & South Oil Company has set and cemented 10-inch surface casing at 60 feet in the No. 1 Odom, south of Hondo a few miles. It was necessary to cement the surface casing due to the gravel in which the hole was losing its returns.

Golden West Oil Company now has five wells on the pump and have been pumping steady in the Ina field in Medina Co. for over two weeks. The field had trouble with the loose sand when it was brought in, but this trouble seems to be getting less and less with the Golden West wells and the production coming up a little more in the wells. Each subsequent cleaning now is adding quite a good percentage to the volume of production.

Golden West has changed the location for its No. 6 Schmidt and is drilling it 300 feet north of the No. 4. Golden West's Joseph Courand, a wildcat test southwest of Castroville, which is a cable tool job, is down 28 feet and setting 8-inch casing—Thursday's Express.

GRASS AND WEEDS

It is pleasant to remember that in our climate there are no weeds so persistent and lasting and universal as grass. Grass is the natural covering of the field. We crop and mow it year after year; and yet, if the season favors, it is sure to come again. Fields that have never known the plow, and never seeded by man, are yet covered with grass. And in human nature, too, weeds are by no means in the ascendant, troublesome as they are. The good green grass of love and truthfulness and common sense is more universal and crowds the idle weeds to the wall.

CLASS MEETING.

The Willing Workers Wesley Class met at the home of Mrs. J. S. Fly Tuesday morning, June the sixth, for their regular semi-monthly business and social meeting.

Only seven members were present as quite a number of the class were out of town on their summer vacations.

Each member gave a report of the work being done, after which new officers were elected for the following six months, as follows: President, Marguerite Newton; Vice President, Irene Schveers; Secretary and Treasurer, Marietta Fly. The report from the candy sale on last Saturday was \$8.50. The class voted to pay ten dollars on the piano that was bought for the primary department of the Sunday School.

After all business was finished, a social hour was spent with a delightful watermelon feast.

This class was organized more than a year ago with eleven members and their membership has grown to fifteen. The object of the class is not only to study the Bible but to scatter sunshine, their motto being: "I must be about my Father's business."

They are rightfully named Willing Workers for their interest in the class has never lagged and they are continuously helping others.

LADIES' FORTY-TWO CLUB.

The members of the Ladies' Forty-two Club were entertained Thursday evening with Mrs. R. J. Noonan and Mrs. P. Jungman and Miss Lucille de Montel as hostesses.

After several games, Mrs. Frank Schveers held high score, 13 games, and Mrs. Arthur Rothe low, 3 games. Tallies and decorations carried out the 4th of July motif with flags and eagles.

Refreshments of chicken and tongue sandwiches, cream puffs and orange and lime "soda-pop", with Shasta daisies as favors, were served to the following: Mesdames L. E. Heath, L. J. Brucks, Fletcher Davis, Horace Bradley, Arthur Rothe, Walter Rothe, Laura Welhausen, F. H. Schveers, F. S. Cockrell, Garland Martin, E. J. Murray; Misses Lorine Heath, Lillian and Bess Brucks, Josephine Brucks and Octavia Davis.

The hostesses at the next meeting will be Mesdames Arthur Rothe, W. O. Rothe and Alice Reinhart.

MRS. E. E. SCOTT DEAD.

A private letter to Earl Starnes from her relatives in Missouri brought the information that Mrs. E. E. Scott died at Lewistown, Mo., at 6 o'clock A. M. Thursday morning, July 1st. Interment took place in Missouri.

The deceased had been a resident of Hondo for many years until about a year ago when she went back to her girlhood home in Missouri to spend her last days. A grandson, Frank Scott Cockrell and his family are the only relatives left in Texas.

Though Mrs. Scott had lived to a ripe old age, her friends learn with sorrow of her passing.

HOW TO WASH PILLOWS.

One of the tasks which confront the homemaker when the house is being cleaned and put in order for the summer is the proper cleaning of the pillows. The United States Department of Agriculture considers that the most satisfactory method is to transfer the feathers to a muslin bag two or three times the size of the ticking. This may be done easily by sewing the edges of the openings of the ticking and bag together and shaking the feathers from one to the other.

The feathers and the ticking are washed separately. To wash the feathers, after sewing them in the muslin bag, scrub them in a weak solution of washing soda, using a good suds. If necessary this is repeated in a second suds. Rinse in two or three lukewarm suds. If an extractor type of washing machine is available, extract as much moisture as possible and then dry the feathers on a sheet in the sun. If one has no machine of this type, squeeze out as much of the excess water as possible and dry in the same way. Beat from

time to time during the process.

After washing the ticking, starch it on the inside with a very stiff starch mixture, applied with a sponge. This closes the pores of the material and prevents the feathers from working their way through. The ticking is then dried and refilled.

The pillows themselves may be washed without removing the feathers, in much the same way as the feathers are washed when transferred to the muslin bag as described above. A slip cover between the ticking and the pillow case will prevent the ticking from becoming soiled easily and do away with unnecessary washing of the slip. Slip covers may be made of a light weight muslin. They are then taken off and washed from time to time and tacked back in place.

SKIN LIKE SAFFRON—LIVER WOULDN'T WORK.

South Georgian Drives Enormous Quantity of Sour Bile from System with Dodson's Liver Tonic.

After a long period of the worst form of weakness and the terrible feeling of sickness that comes from a system loaded with sour bile, Mr. Sam Puckett says: "When I kept getting those bilious attacks reckon I took enough calomel to kill a mule. Got worse all the time. Finally I turned saffron color all over. My wife happened to read about Dodson's Liver Tonic in the Weekly Constitution, so we drove to town and got a bottle. It was like magic. It drove quarts of sour bile out of me as black as ink. From that day I have felt as if I had a new liver, and whenever I began to feel weary and bilious, with no appetite, a dose of Dodson's Liver Tonic puts me to rights."

This wonderful, quickaction, liver starter ought to be in every household, if for no other reason than to stop the use of dangerous calomel. Dodson's Liver Tonic is pleasant to take, even for children, and never makes you feel sick.

Dodson's Liver Tonic is personally guaranteed by every druggist who sells it. A large bottle costs but a few cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.
